CODE OF ETHICS

Adapted from the Code of Ethics of the Education Profession and Principles of Professional Conduct for the Education Profession in Florida

1. Our school values the worth and dignity of every person, the pursuit of truth, devotion to excellence, acquisition of knowledge, and the nurture of democratic citizenship. Essential to the achievement of these standards are the freedom to learn and to teach and the guarantee of equal opportunity for all. Further, we recognize that each believer has the ability to hear the Holy Spirit and to move by Word and Spirit, that each student has a purpose for which they were born and needs specific training to achieve and fulfill this purpose.
2. Our primary concern is the will of our Heavenly Father, and partnering with parents for the development of the student's potential. Contractors/employees will therefore strive for professional growth and will seek to exercise the best professional judgment and integrity nurturing a solid relationship with parents through open lines of consistent communication.

 - j. Shall keep in confidence personally identifiable information obtained in the course of professional service, unless disclosure serves professional purposes, is required for the safety and well-being of a student/family, or is required by law.
- 4. Concern for the student requires that we have a procedure to report alleged misconduct by instructional personnel, educational support employees, and school administrators which affects the health, safety, or welfare of a student.
- 5. Concern for the student requires that our parents
 - a. Accept that it is incumbent upon them to conduct all measures at home so as to raise children who will listen and respect their authorities at school.
